New arrivals

Introducing Grok 4.2

Fast, accurate reasoning powering real-time enterprise decisions

Introducing MAI-Image-2

Built for creatives, delivering enhanced photorealism at scale.

Introducing MAI-Voice-1 & MAI Transcribe-1

High-fidelity and enterprise-grade accuracy models for audio experiences.

Assistants playground

Speed up development of GPT-powered AI Assistants with prebuilt conversation state management and customization tools.

[Try it now](#)

Chat playground

Design a customized AI assistant using ChatGPT. Experiment with GPT-3.5-Turbo and GPT-4 models.

[Try it now](#)

Bring your own data

Ground your own data on advanced AI models to create conversational copilots that aid user comprehension, task completion, and decision-making.

[Try it now](#)

Images playground

Generate unique images by writing descriptions in natural language.

Fine-tuning

Create a custom model by training it with your own data.

Want to try the latest industry models and Agents ?

Azure OpenAI is limited to OpenAI models. Upgrading your resource type to Foundry gives you access to Open AI plus third-party models like Meta , Mistral , xAI and more. Build enterprise grade AI agents using your data and tools.

Build your own secure copilot and generative AI applications with Azure OpenAI Service

Deploy an Azure OpenAI model and start making API calls. Connect your own data, call functions, and improve workflow with Azure OpenAI language, image and speech models. You can access the service through REST APIs, Python SDK, or our web-based interface in the Foundry portal.

[Learn More](#)

Explore and deploy

Explore and deploy the generative AI models, craft unique prompts for your use cases, and fine-tune select models.
